

Fiber Optic Duplex Patch Cables, E2000 Diamond

E2000 (8° APC) to E2000 (8°APC)

✓ Connector: E2000/E2000, LC or SC

✓ LSZH sheath

✓ Singlemode

✓ various lengths available

Abstract

Fiber Optic Duplex Patch Cords, E2000 (8° APC) to E2000 (8° APC), LC (PC) or SC (PC), Duplex, Singlemode

Features

- E2000 connector: Diamond
- LC, SC connector: normal, with ceramic ferrule
- Duplex cable
- LSZH sheath
- Cable diameter: 2.8 mm
- Single packed with test-report
- Connector 1: E2000; Connector 2: E2000, LC or SC
- Halogen free cable I-VH 2E-XXX (Singlemode)
- Fiber classes: OS2, 09/125 μ

Product Overview

The fiber optic cables guarantee the best performance and fail-safety. All cables are single packed in a polybag with test report. The E2000 connector from DIAMOND ensures best performance and a perfect attenuation for highest requirements. Due to its precise design, the connector provides an insertion loss of less than 0.1 dB. The spring-mounted connector protection cap protects the eyes of harmful laser beams. It also closes automatically when pulling out the connector in order to protect the ferrule of dust and scratches.

Application Areas

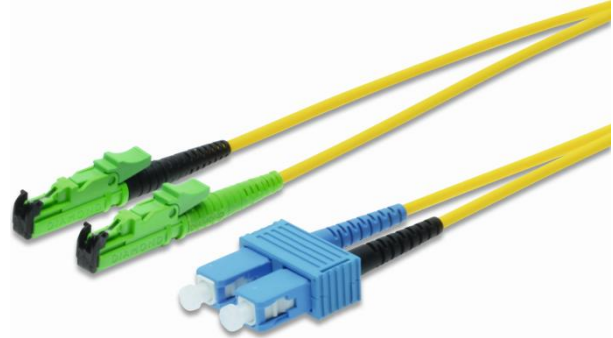

- Telecommunication, cable TV
- LAN, WAN, MAN
- Measurement
- Sensor technologies
- Medical instrumentation and measurement techniques
- Industrial applications
