## **Set-up and Pairing via Bluetooth for Music Playback**

The following instructions apply for a mobile phone but the procedure is the same for a music player, except that you may not need to give the Bluetooth passcode.

1. Ensure that the speaker and the phone are on.
2. Push the power key to "on", you will hear "beep....." Sound.
3. Activate the Bluetooth function on the phone and search for Bluetooth devices. .
4. Select the Bluetooth speakers "DA-10287-1" from the list of found device. You may be prompted to enter a Bluetooth passcode for some devices. If necessary, enter the Bluetooth passcode 0000 to pair the speaker to the phone. In some phones you may need to make the connection separately after pairing.  
If the pairing is successful and the speaker is in a Bluetooth connection with the music device, the blue indicator light blinks 3 times every 4 seconds, and you will hear "beep..." sound.
5. This speaker includes hands-free calling function. When it successfully establishes a Bluetooth connection to your mobile phone, you can press play/pause button to answer or end a call.

## **Reconnection in Event of Bluetooth Disconnection**

If by any reason your device and the Speaker are disconnected, such as out of connection distance or powering off, the Speaker will "auto-connect" with compatible devices that auto-search and re-connect with their last connecting device, the reconnection time is 30 seconds, please don't operate the speaker at that time.

If want to disconnect the Bluetooth speaker after succeed in paring, can long press pause/play button.

## **Controlling Playback When Connected Via Bluetooth:**

**Volume:** Using the volume controls on the side of the Speaker, press the (+) button to increase volume and the (-) button to decrease volume.

**Pause music:** press the pause/play button to pause playback when the Bluetooth connection. Press again to resume music.

## **Connecting to a Device Via 3.5 mm "LINE IN" Input**

You can use DA-10287-1 Bluetooth Speaker for music playback with any device which has a 3.5 mm headphone port. Simply plug one end of the cable into your device, as you would a pair of headphones. Plug the other end of the cable into the 3.5 mm port marked "LINE IN" on the front of AONI-611BT Bluetooth Speaker, then Play music.

## **When Connected Via 3.5 mm "LINE IN" Input:**

**Note:** Pause cannot be controlled with the pause/play control on DA-10287-1 Bluetooth Speaker when connected via the 3.5 mm "LINE IN" input, the GRENN LED light will be normally on. Use the pause control on your device as you normally would.

## **Recharging Battery**

Plug the Micro USB end of the included USB cable into the micro USB port. Plug the other end into a USB port on your computer or other devices made for USB charging. The LED light will begin to RED. It will be GREEN at full charged. Charging time is 4 hours from an empty battery, it's better to charge 12 hours at the first three times.
