

# User Manual

USB2.0 to IDE and SATA Adapter Cable

Model: DA-70202

## **I. Foreword**

Congratulations on your purchase of our product! We will show you a new storage concept with safety and convenience. It is our pleasure to give you the best solution to expand your HDD'S Capacity and enhance your data's reliability in PC system or Mac system. Before using the product, please read this manual carefully for further recognizing of the product.

## **II. System Requirement**

- Basic environment for setup this device:
- Hardware requirement: a PC, Notebook or Mac system with free USB interface
- Operation system: Windows7/8/10/Vista/XP/2000, Mac OS 9.x above

## **III. Feature**

1. Supports IDE/SATA 2.5/3.5/5.25 devices
2. Support USB2.0 to Serial ATA interface, transfer rate up to 480Mb/sec
2. Support USB2.0 to IDE interface, transfer rate up to 480Mb/sec
3. Bus power for 2.5 Hard Disk

## **IV. Package Content**

- USB to IDE/SATA Adapter cable
- Supported CD Driver
- User's Manual

Note: For 3.5/5.25 IDE devices, please plug in a 5V/12V power supply (not included) to appropriate port on the back side of HDD or DVD, so that the PC power switch (on/off) can't control the current to HDD or DVD. If you want to cut off the current to HDD or DVD, then you need to plug out the power plug from 3.5" IDE HDD or 5.25 DVD devices.

Both IDE and SATA plug are protected against polarity reversal and should be easily connected to the device. If not, Please check if you use the plug in the right way. Please be sure, that your IDE device is configured as MASTER.

## V. Hardware installation

- a. Connect to a 2.5 SATA HDD

- b. Connect to a 2.5 IDE HDD

For a 2.5 SATA HDD or IDE HDD, plug directly the SATA connector or the 44pin connector into the appropriate ports on the rear of the HDD, and plug the USB signal/data plug (Black) into USB port of PC.

**Note: If you HDD need more than 500mA, please plug the USB extra power plug (Red) additionally into other USB port.**

### c. Connect to a 3.5 SATA HDD

### d. Connect to a 3.5 IDE HDD

For a 3.5 SATA HDD or a 3.5 IDE HDD, plug directly the SATA connector or the 40pin connector into the appropriate ports on the rear of the HDD, and plug the USB signal/data plug(Black) into USB port of PC, then plug the 4-pin plug of the power supply (not included) to the 4-pin power jack (for IDE HDD direct plug in HDD power connector), and the other end plug to power source.

## e. Connect to a 5.25 IDE HDD

For a 5.25 CD/DVD device, plug directly the 40pin connector into the appropriate ports on the rear of the CD/DVD device, and plug the USB signal/data plug (Black) into USB port of PC, then plug the 4-pin plug of the power supply to the 4-pin power jack (for IDE CD/DVD direct plug in CD/DVD power connector), and the other end plug to power source.

## VI. Driver installation

a. Setup mode under Windows7/8/10/Vista/XP/2000 system

Under Windows7/8/10/Vista/XP/2000, the system will find and setup **[USB Mass Storage Device]** directly

b. Setup mode under Mac OS system

If your system is Mac OS9.0 or above, the system can find the driver directly. If your system is OS8.6, you have to download and setup **[USB MASS STORAGE SUPPORT 1.3.5]** from SOFTWARE SUPPORT

Website : <http://www.apple.com/support>

## **VII. Under the following situation, you need to use 5V/12V Power supply**

- 1) When connects with the 3.5 / 5.25 SATA devices  
( HDD, CD ROM , DVD Rom )
- 2) When this product connect with 3.5 / 5.25 IDE devices  
( HDD , CD Rom , DVD Rom )
- 3) Connecting with the 2.5 SATA HD, when the power consumption is bigger than 1A
- 4) Connecting with the 1.8 / 2.5 IDE HDD, when power consumption is bigger than 1A

### **\* Remove the multi-function adapter**

Warning: Before removing the multi-function, you must finish the following procedure:

- 1) Click the icon in the **[Desktop]** window of your computer
- 2) A **[Safely Remove Hardware]** message window will appear, click the **[Stop]** button
