

## **Dual 2.5" HDD/SSD Internal Mounting Kit incl. cable set**

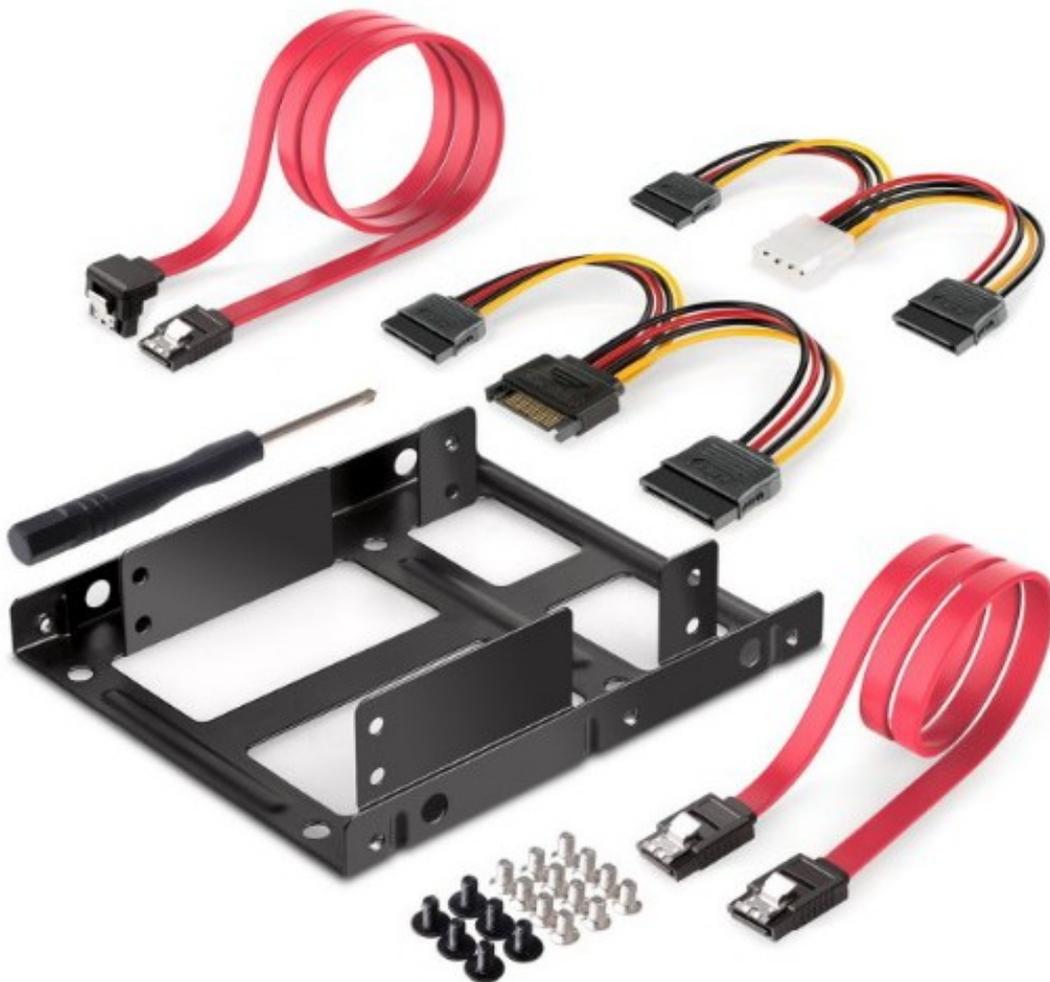

### **Manual DA-70434**

The DIGITUS® mounting frame kit allows you to insert up to two 2.5" SSD or HDD hard drives into a standard 3.5" drive bay. By installing the hard drives, you can create additional storage space to your computer, as well as achieve faster access times to your data via an SSD. The scope of supply includes all necessary screws and cables to connect the hard drives directly. In addition to SATA connection cables, the scope of supply also includes Y-Power cables to be connected to both SATA and IDE power supplies.

## Features

- Quick and easy installation
- Compatible with all types of 2.5" hard drives
- Convert any 2 x 2.5" HDD/SSD into a 3.5" drive bay
- For use in 3.5" internal drive bay
- Metal design for better heat dissipation of HDD
- SATA connection cables and SATA power adapters are included
- Maximize space within your computer case
- Screw pack included to mount the drives
- Product Dimension: 102\*115\*24MM
- Product weight: 153g

## Mounting

1. Switch off the PC and unplug the mains cable.
2. Slide the hard disks carefully one above the other into the HDD/SSD/IDE/SATA mounting frame, that the circuit boards are facing downwards and the connectors facing outwards or to the housings backside.
3. Mount the hard disks on their sides.
4. Open the PC housing and remove the housing cover carefully.
5. Choose a free 3.5" slot.
6. Plug the HDD/SSD/IDE/SATA mounting frame in the 3.5" slot.
7. Fix the HDD/SSD/IDE/SATA mounting frame by the big screw at the outer housing side and check the correct fitting in the 3.5" slot!
8. Connect the data cables and power supplies to the hard disks.
9. Close the cover of the PC.
10. Reconnect the PC with main and switch it on.
