for Apple iOS and Google Android

DIGITUS® Plug&View OptiVision

The 2 megapixel CMOS sensor of the DIGITUS® Plug&View OptiVision with IR LEDs delivers high quality images. Achieving a crystal clear video resolution by day and night is no longer a problem. The camera has a small, compact design and supports microSD cards up to 32 GB. Monitoring your child's room or your pets that stay alone during the day – OptiVision gives you a secure feeling. The powerful motion detection of the camera allows a timed automatic recording and stores the images on FTP server or in Google Drive. The „motion detection“ mode notifies you on your smart phone or tablet of new stored clips. With DIGITUS® Plug&View technology the installation of your OptiVision is done in 3 easy steps. Everything just works with DIGITUS® Plug&View.

- 2 megapixel video resolution (UXGA 1600 x 1200, HD720 1280 x 720)
