## FCC Warning

This device has been tested and found to comply with limits for a Class B digital device, pursuant to Part 2 and 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates and radiates radio frequency energy and, if not installed and used in accordance with the user's manual, it may cause interference in which case users will be required to correct interference at their own expenses.

24 Port PoE 10/100M

+ 2 Combo Gigabit UTP/SFP Open Slot

## User's Manual <br> DN-95314

## CE Warning

This is a Class B product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

## Introduction

This switch provides 24 10/100Mbps PoE Nway RJ-45 ports and can support 2 Combo Gigabit Copper/SFP for uplink. It was designed for easy installation and high performance in an environment where traffic is on the network and the number of users increases continuously.

It consists of 24 PSE/PoE ports. That can solve the limitation of the power outlet location and offer the system designer a flexible solution to locate the network device everywhere

The rack-mount size was specifically designed for medium to large workgroups The switch can be installed where space is limited; moreover it provides smooth network migration and easy upgrade to network capacity. The 483 mm (19") size can be rack-mount on cabinet.

## Key Features

- Provides 24-port 10/100Mbps PoE + 2 Combo Gigabit UTP/SFP open slot
- 24 PSE/PoE function ports
- Flexible: Supporting the power Max. 15.4 W for 12 PSE/PoE ports or 7 W for 24 ports
- Rack-mount size
- Non-blocking \& Non-head-of-line blocking full wire speed forwarding
- Store-and-forward operation support
- Embedded 2.75 Mb packet buffer
- Provides 4K MAC address entry
- Supports broadcast storm filtering
- All ports provide Auto-Negotiation and Auto-MDI/ MDI-X functions
- Supports flow control: back pressure for Half-duplex and IEEE 802.3x for Full-duplex mode
- Smart plug \& play

## Package Contents

Before you start to install this Switch, please verify your package contain the following items:

- One 24-port PoE Switch
- One AC Power Cord
- One User's Manual
- Rack-mount Kit

Note: If any of these items is found missing or damaged, please contact your local supplier for replacement

## Front Panel (LEDs)

LED Indicators of 24-port 10/100M PoE

+ 2 Combo Gigabit Copper/SFP Switch

| LED | Status | Description | No. Of LED |
| :--- | :--- | :--- | :--- |
| Power | On | Power on | Power |
| 1000 M | On | Link 1000Mbps | $2(25 \sim 26)$ |
|  | Off | Link 10/100Mbps | $26(1 \sim 26)$ |
| Link/ Act | On | Link | $26(1 \sim 26)$ |
|  | Flashing | Data activating | On |
|  | Oort is linked to |  |  |
| Power Device |  |  |  |\(\left.\quad 24(1 \sim 24) . \begin{array}{l}No Power Device <br>

is connected\end{array}\right) 24(1 \sim 24)\).

## Connections

## PC/Other devices to this 24 PoE

 10/100M Port + 2 Combo Gigabit Copper/SFP Open Slot SwitchVia a twisted pair cable straight through, this switch can be connected to PCs, servers and other network devices.

## Power Device to this 24-port 10/100M

 PoE + 2 Combo Gigabit Copper/SFP Open Slot Switch and getting 48V power source through Cat. 5 cablesUsing Cat. 5 twisted-pair cable to connect Power Device to the port 1~24 of this switch, and then this switch will supply 48 V power to Power Device over Cat. 5 twisted-pair cable. Please be noted Power Device should also comply with IEEE 802.3af.

## Rear Panel (Power) <br> AC input

AC input (100~240V/AC, 50~60Hz)

OFF
