

Fiber Optic Universal Sleeve

✓ Complies with the IP 68 standard

✓ Length: 32.5 cm

✓ Crimp- or shrink protection

✓ Integrated splice carrier

Abstract

Fiber Optic Universal Sleeve with crimp- or shrink protection

Features

- Complies with the IP 68 standard
- Length incl. PG screw: 32.5 cm
- Diameter: 6.8 cm
- Suitable for glass fiber cable with max. 24 fibers and max. 10 mm diameter
- Integrated splice carrier for storage of up to 24 splice protective elements

Product Overview

The universal sleeve is a fully mechanical cable sleeve for up to 24 FOC splice connections. It is very easy, without special tools, to mount and is used anywhere where glass fiber cables need to be fast and easily connected.
