

## 4K HDMI Switch 5x1

Manual DS-45304

The DS-45304 routes high definition video (resolution up to 4K) and digital audio from any one of the five sources to the display unit. The output sends the high definition audio/video signals to a high definition display.

INPUT

OUTPUT

4K HDTV

**Note:**

- 1) When the source devices are on the stand-by mode, its power supply should be turned off, otherwise this switcher cannot meet the intelligent function.
- 2) When plugged in or out, this switcher is completely intelligent.
