DIGITUS®/

USB 3.0 HUB, 7-PORT, SWITCHABLE, ALUMINIUM HOUSING

Quick Installation Guide DA-70248

1. Introduction

The DIGITUS switchable USB 3.0 hub is the ideal extension for every workplace. Up to seven USB devices can be connected and used simultaneously. They can be turned on or off individually, allowing multiple input devices or portable storage devices to be used on one USB port. The data transmission can reach a speed of up to 5 Gbps and ensures the fastest data exchange. The housing is made of high-quality aluminum.

2. Features

- The USB hub provides up to 7 additional connection options for external hard drives, SSDs or other USB devices on your PC, notebook, or tablet.
- A 5V/2A power supply is included to ensures the electrical supply of the USB hub to be able to operate all connected components at the USB distributor.
- Each USB port has an on/off switch and a LED control light, frequent plugging/ unplugging of connected devices is no longer necessary.
- 4. Thanks to the Super-Speed USB 3.0

- standard, fast data transfer rates of up to 5 GBit/s are possible USB 2.0 & USB 1.1 are also supported thanks to backward compatibility
- Compatible with many operating systems e.g., MacOS, Windows, Linux
- Plug & Play Plug in and start immediately, no further installation necessary

3. Package content

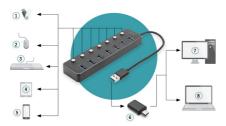

- 1x USB Hub
- 1x USB A to USB Type-C adapter
- 1x power supply 5V/2A
- 1x User Manual

4. Specifications

System requirements	macOS X, Windows 7, 8, 10, 11, Google Chrome OS
Data transfer rate	Up to 5 Gbps
USB specification	USB 3.1 Gen1
Material	Aluminium
Cable Length	20 cm
Weight	120 g
Colour	Dark grey

Dimension L/W/H	16.2 x 4.2 x 2 cm
Operating	0°C ~ 40 °C
Temperature	(35 °F ~100°F)

5. Connection

1	USB-Stick	5	Phone
2	Mouse	6	USB-A to USB-C™ Adapter
3	Keyboard	7	PC
4	Tablet	8	Notebook

6. Installation

Windows XP/7/8/10/11, Mac9.1 or above

- Turn your computer on and wait until the system has finished booting
- 2. Connect the USB plug to your computer
- Connect the USB plugs on the peripheral devices (Printer, scanner...etc.) to the USB hub and switch on/off the connected device

FAQ

Can I use the USB hub without power adapter connected?

Yes, the USB host port on PC can supply up to 900mA power to the hub, you don't have to plug power adapter if only lower power or external powered USB devices connected to the HUB, such as keyboard, mouse, USB Stick, card reader, printer or 3.5 USB hard drive with external power

Can I use this hub for charging?

This hub is designed as a data hub, you can charge low power device such as Bluetooth headset, mobile phone, but do not charge tablets and other devices that require a higher power input

Important Note

This hub is designed for data transfer and not meant to serve as a stand-alone charger. Use it for charging low power device only
