III. Operation Guide

BlazeVideo HDTV Player features very easy usage, below we just guide you through the HDTV operation, for DVD (only available on Professional Version) and medial files playback, please refer to the Help file attached with the software.

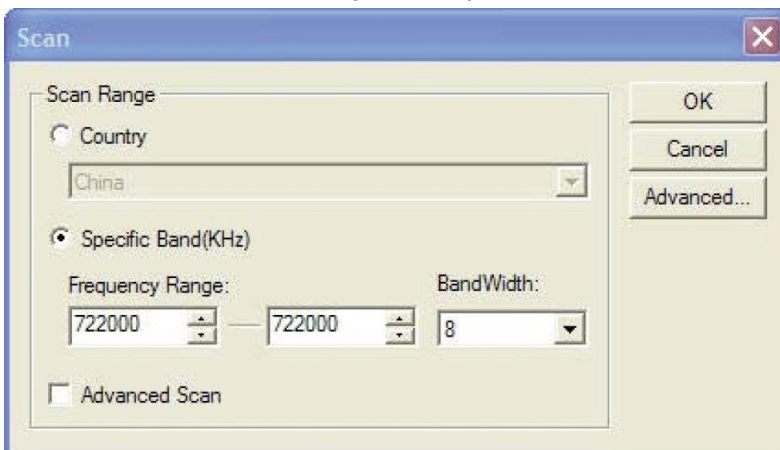

3.1 Scan Channels

3.1.1 Auto Scan Channels

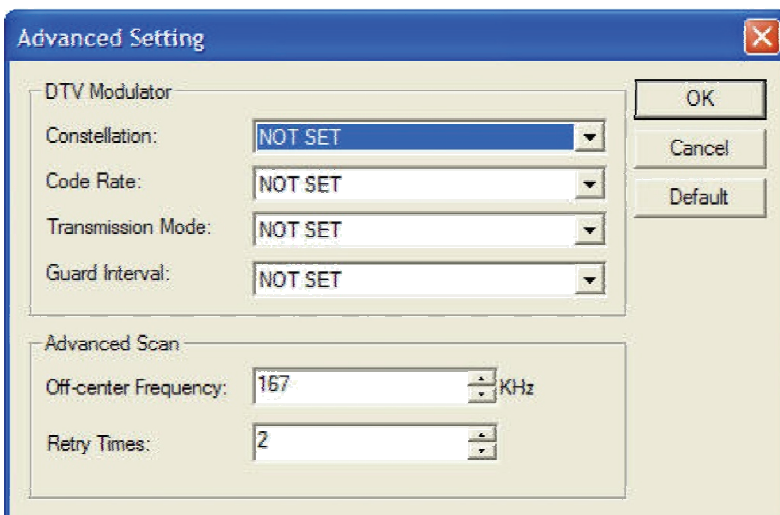

If a HDTV device installed or connected to your PC, and its driver has been properly installed, after launching BlazeVideo HDTV Player, a box will pop up to enquire you whether to scan channels.

Click Yes, the "Scan" box ejects for you to set scan options.

Advanced Setting: Check in "Advanced Scan" and click "Advanced..." to popup "Advanced Setting" box, here you can set advanced scan properties.

3.1.2 Manually Scan Channels

In TV Advanced Panel click In EPG_Channels window click;
Go to Options-> DTV window, click "Scan" button under "DTV Source".

Abort Scanning:

Just press "Abort" button to stop scanning. (It is recommended you finish scanning one time at least).

3.2 Watch Live TV Show

- Select Channel:** In EPG_Channels window, double click a desired channel;
or click to open channel list to select.
- Switch Channel:** Click to switch channel.
- Browse Channel:** Click to open channel list, all of the channels will be displayed.
- Return to Last Channel:** Click to resume play the last viewed channel.
- Select Subtitle:** Click to select your desired subtitle.
- Select Audio:** Click to select your desired audio.

3.3 Display Teletext

Note: The Teletext is activated only if HDTV service provider has provided such service.

Display Teletext:

- Click  and tick "Teletext" in popup menu.
- Click  and tick "Show Teletext" in popup menu.

Go To: Go to specified teletext page or press **◀ ▶** to go to previous or next page.

Hold Keep displaying current teletext during other operations.

Transparent: Display Teletext over the current video by transparent mode.

3.4 TimeShift

TimeShift means you can pause watching a live program to have a break, when you come back you will resume watching from the point at which you paused.

Click **||** to pause, The video screen will freeze, but the recording will continue.

Click **||** again or click **▶** to continue watching TV show from the point at which it was paused.

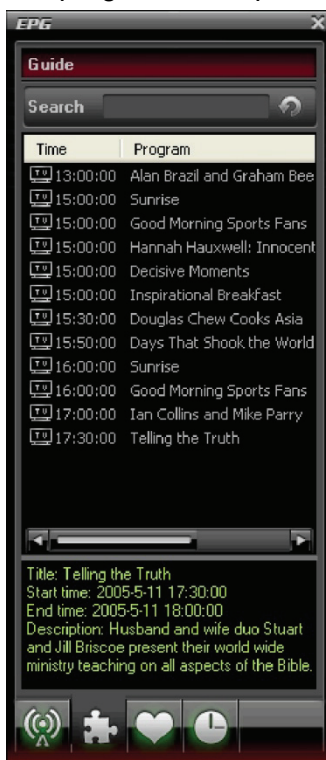

Click **▶** two times to stop TimeShift and return to the live program.

Note: The record duration depends on your TimeShift Buffer Size, which can be set in [DTV Setting](#).

3.5 Program Guide

In EPG_Guide panel, click a program to access program details: program title, start time, end time and program description.

Smart Search: Type the start time or keyword of your desired programs in Search box, all the relative program guide will be displayed.

Click , you will clear the search result and resume display all the program guide.

3.6 Live Record TV Show

While you are watching a TV show, click  to pop up Record floating panel, you will begin to record live HDTV show into MPEG2 file. You can also stop record, play record or delete record file in this record panel.

3.7 Create Schedule Task

In EPG_Schedule window, click  to create a task. After creating a task and eject below Task box: here you can set task name, task type and task time.

The screenshot shows a 'Task' dialog box with the following fields and options:

- Task:** Name: Task_2, Channel: (dropdown menu)
- Task Type:** Recording File (selected), Duration: 30 Minute(s), Viewing Reminder (unselected)
- Task Time:** Time Start: 2005-10-28 13:31:33, Date: 2005-10-28, Time: 13:31:33

Auto wakeup to perform schedule task at PC hibernation status:

Your PC can auto wakeup to launch schedule task in hibernation status for power saving, the operation is below:

1. Set schedule task;
2. Hibernate your PC;

Note: To hibernate your PC, you must activate "Enable Hibernation" in your PC's Power Options Properties.

3. Your PC will auto wake up to perform task at the scheduled time.

3.8 Schedule Record TV Show

Following 3.8 chapter "Create Schedule Task", set task type as "Recording File" and set task start time, it will auto record the preset TV show by the task start time, even though you are away from PC or your PC is hibernated.

3.9 Reminded to Watch

You will be reminded to watch TV show at the schedule time, thus you will never miss any of your favorite program. Just set Task Type as Viewing Reminder when you create schedule task. The other operations are as schedule record TV.

3.10 Multi-channel Preview

- **Preview while scanning channels:** Tick "Preview found channels" box while scanning channels, each found channel will sequentially display on video window.
- **Multi-channel preview in EPG window:**

Click  in EPG_Channels window to refresh channels, each program will display on video window by sequence, after refresh finishes, all programs' snapshot will be listed in EPG_Channels window. Double click a program, you will directly playback it.

3.11 Favorite Management

- **Add to favorite:** In EPG_Channels window, select a channel and click  or right click to add favorite.
- **Watch favorite channel:** double click the favorite channel to directly watch this channel's program.
- **Favorite management:** in EPG_Favorite window, you can freely create, rename, change or delete favorite folder.

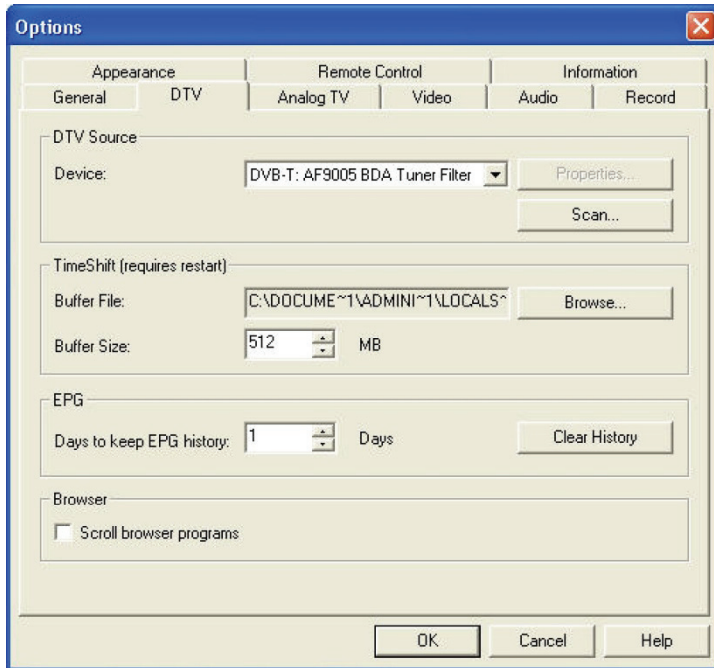

3.12 Take Snapshot

Click  to take snapshot, the captured image will display in Capture floating panel, default saved as .bmp file in "My Pictures" by sequence number 1, 2, 3, etc. You can freely capture, preview, delete, copy or save the snapshot in Capture floating panel.

IV. Settings

Right click Video window and click Options, you will open Options box for advanced setting, below we just take DTV and Record setting as examples.

4.1 DTV Setting

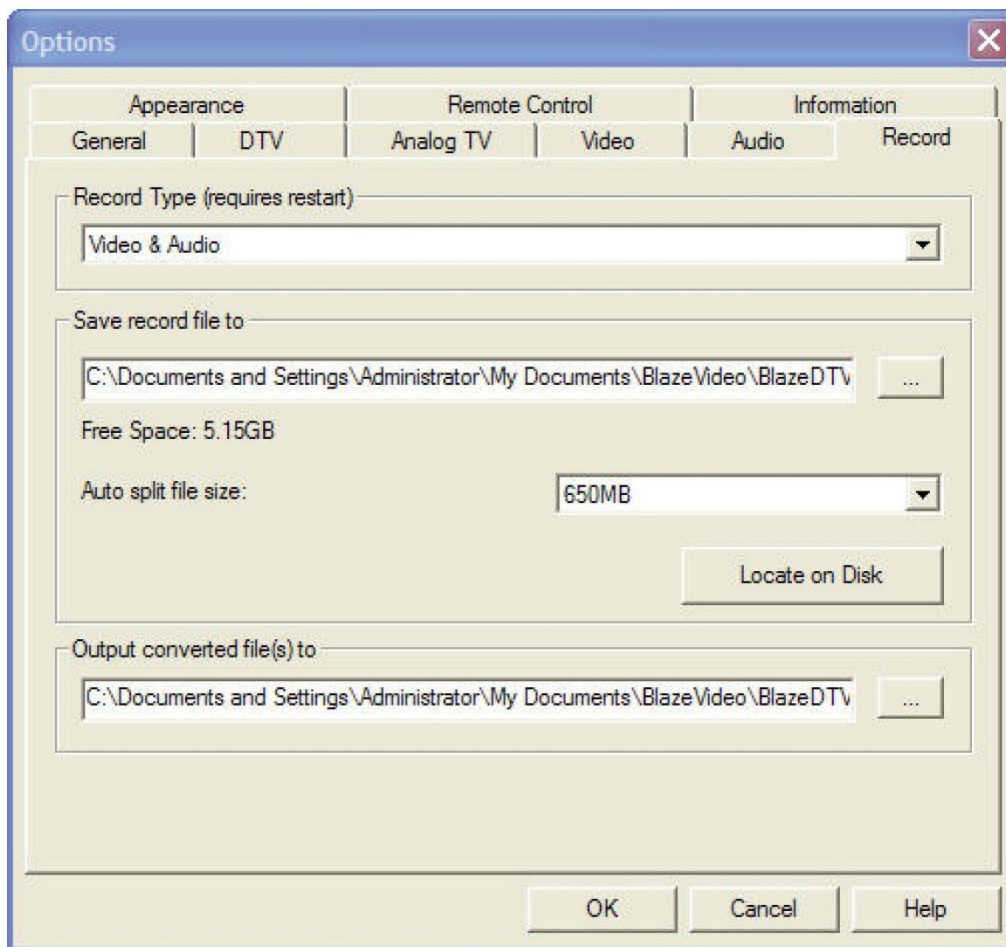

- **Device:** If a HDTV device installed or connected to your PC, the device name will display.
- **Scan:** click to launch channel scanning
- **TimeShift:**
- **Buffer File:** display the directory of buffer file, please select a directory with large enough space.
- **Buffer Size:** Hard disk size for buffer and saving paused programs, the bigger size, the longer time of saving program.

Note: After you change the buffer file or buffer size, please restart the program to activate the change.

- **Days to keep EPG history:** Set the days to keep the EPG history, maximum 7 days to keep EPG history.
- **Clear History:** Delete the EPG history.
- **Scroll browse programs:** Selected to scroll browse programs after click

Not support analog tv

V. Technical Support

5.1 Troubleshooting

How to clear the saved channel:

- Please exit the program firstly, then locate “*DVB_T.gsl*” file in program installation folder and delete it.

Fail to search channel:

- A. Expand frequency range
- B. Adjust off-center frequency
- C. Change parameter in Advanced Setting box

Fail to playback HDTV show:

- Current channel has no data stream, please research channel.

Note: Please view the clock in Main Control Panel to check: if clock change with the time, there is data stream; clock unchanged, no data stream.

Can not record some channel’s program

- The channel adopts AC-3 audio encoding mode.

5.2. Contact Support

Please collect the following information and E-mail us. We will respond you as soon as possible:

- Product Order ID
- BlazeVideo HDTV Player’s version number
- Windows Operating System’s version
- Hardware configuration (sound card, VGA card, Image Capture card) and their specifications
- The warning message
- The time and process descriptions about your troubles.
