DIGITUS®

Cable Management Channel

Introduction

This under-desk cable management tray provides plenty of storage space for cables, socket strips and more. Made of powder-coated steel, this product is sturdy and durable. The open design makes it easy to route and store cables and socket strips. The channel can be attached to a sit/stand desk as well as a traditional desk. Ample space is created for power cords, network and computer cables. The cable management solution allows the sit/stand desk to move while preventing damage to cabling. The sleek appearance fits perfectly with a clean, open design of your workplace.

Feature

1. Clean design: Hides cables and power cords for a clean workspace
2. Easy installation: Screw mounting under the desk allows for quick installation
3. Perfect accessory for height-adjustable desks - Tidies up the workspace while preventing damage to cabling

4. Dimensions: W 60 x D 13.5 x H 10.8 cm
5. Weight: 1.1 kg
6. Color: Black
7. Material: Steel
8. Surface: Powder coating
9. Mounting: Under desktop
