### Twisted Pair Patchcord - Categorie 6 Clas E -Slim U/FTP - LSZH

#### Short description

DIGITUS Professional

CAT 6 Class E, U/FTP, Twisted Pair Patchcord, Cu, LSZH, AWG 28/7, various lengths and color available

#### **Technical Properties**

2x RJ45 connectors (8P8C) Boots with kink protection, strain relief and latch protection Length marking on boot Conductor: Cu (Copper) Shielding: U/FTP (pairs foil shielded) Structure: 4x 2 AWG 28/7, twisted pair; Sheath: LSZH (Low Smoke Zero Halogen) PoE+ ready

#### Long Descripton

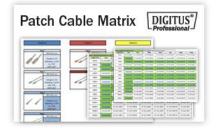

DIGITUS<sup>®</sup> slim patch cords are characterised by their small outer diameter and flexible sheath. Slim design enables versatile use in your network. Moreover, DIGITUS<sup>®</sup> slim patch cords are manufactured according to ISO/IEC 11801 and DIN EN 50173 CAT 6 standards. They guarantee that the cable installation complies with the ISO & EN channel specification and provide excellent performance in DIGITUS<sup>®</sup> CAT 6 cabling. Performance was tested up to 250 MHz, including performance characteristics such as near-end crosstalk ("NEXT"). DIGITUS<sup>®</sup> patch cords were specifically designed to fully meet all requirements in various application areas. Each cable is equipped with a moulded anti-kink sleeve with strain relief. In addition, the sleeve has a locking lever protection, which prevents kinking of the cables and breaking-off of the locking lever from the connector. Category 6 is simply identified by the red coloured connectors.

#### **Patch Cord Matrix and Configuration**

Patch cords can be wide-ranging. Therefore we prepared a complete overview of our range, which guides you to the cable you require.

One E-Mail or one call will be enough and we will send you the latest version as a PDF file.

You can also check our Patch Cord Configuration tool on our website <u>www.digitus-professional.com</u>
