DIGITUS® Plug&View app
for Apple iOS and Google Android

Feel good in your own home and take a look in the home while being on vacation -this provides the DIGITUS® Plug&View OptiPan.Thanks to pan and tilt function you are able to look around in your home while you are traveling. The elegant globular IP camera can be mounted either on the ceiling or placed inconspicuously in the room. The necessary mounting hardware is included in package content. So the indoor camera for example monitors hallways, living room or nursery. With a video resolution of 2 megapixels, the Plug&View OptiPan provides a convincing image quality. It also supports two-way audio, so „listening“ and „speaking“ -Ideal for the nursery or to drive away your dog off the couch while you are in the office. The installation of this camera, as in the entire Plug&View system, is quick and easy, and is done for example via QR code scanning. Call up the images directly via the free DIGITUS® Plug & View app. For a later viewing the images the storage of recorded video footage in a Google Drive account is offered.
