- IEC 297-2, DIN 41494/Part 7, DIN 41491/Part 1, EN 60950, VDE 0100
- Extensive range of accessories available

Product Overview

The DIGITUS[®] Network Cabinet SoHo series is designed and produced for cabling and networking components. They provide maximum optimization resulted to an optimum performance in between quality and added value. Each cabinet is designed with strength, ease of use and aesthetics in mind.

Features such as one unit marking on the mounting profiles, easy and quick release of the doors, fully adjustable front and rear profiles of the cabinet make the product extremely attractive to installers.

The incredible design of the SoHo series is rounded up with the use of a framed smoked safety glass front door fitted with a swing handle lock. Door hinging can be quickly reversed left to right.

The SoHo series is available in 3 heights from 22 units up to 42 units.

A various size of 600 mm and 800 mm depth are also in the portfolio of the series. Each cabinet includes a lockable front door and a lockable steel back door.

Furthermore, 2 sets of adjustable mounting profiles are equipped and the roof is prepared for fan trays as well as cable entry brush strips are included.

A huge range of DIGITUS[®] accessories is available to customize the cabinet due to the needs of the end-user.
