Please note: The Club and Equalize themes only display when music playing

### 3. Gravity sensor

At Club and Equalize themes, the speaker can support gravity sensor.

### 4. Aux In

Use the 3.5mm audio cable included to connect the speaker to an audio source (PC, MP3/MP4, mobile phone). Short press the **M** button to enter “**AUX IN**” mode (the speaker will voice “Aux in” mode). The speaker will play the music from the audio source.

**Please note:** Low battery will affect the music sound quality, please charge the speaker by adaptor (5V 1A) soon.

## **5. PC USB Mode**

Please use the USB cable what we included to connect the speaker to the computer, a short press of the **M** button to enter the PC USB Mode, which will operate as a computer speaker. In the first time using this function, computer will automatically identify the speaker and install the driver.

Please note: At this mode, it just have MUTE function no Pause.

## **6. Charging**

The speaker is with the built-in the lithium battery. Please use the USB cable what we included to connect the speaker to the computer or a branded good quality 5V/1000mA adaptor to charge the battery. When charging, the LED indicator is orange, when finished charging, the LED indicator will turn off.

Please note: If low capacity, the indicator light will flash quickly, please charge immediately.

## **Troubleshooting**

### **1. What should I do if the speaker can not pair with the Bluetooth device and play music accordingly?**

Please check the specification/ the manual of the Bluetooth device (your mobile or computer), and check if the device can support the A2DP stereo audio transmission. If yes, please turn on the A2DP stereo mode.

### **2. What should I do if the PC USB function could not work?**

(1) Connect the speaker to the computer via the USB cable included, and enter the PC USB mode. And then play the video/ audio from the computer.

(2) If it could not work, it may be the problem that the sound card of the speaker is incompatible with the computer. Please try to click the device manager--- click the Voice video and games controller---right click the USB Audio device---click the uninstall. Then please switch the speaker to PC USB mode again. The computer will automatically update the USB sound card drive to achieve the compatibility

**Please note:** The USB sound card function only apply to: Windows XP/ Windows vista Windows 7/ windows 8.
